## PerMig—Perspectives for migrants

Activity for activation and linguistic and professional integration

Approved training provider according to AZAV

## Objectives

The aim of the seminar is to introduce unemployed or jobseekers with a migration background and little knowledge of German to the job market - and in doing so to

- identify their professional knowledge, skills and abilities
- to provide them with job-related language skills or to expand these skills
- to place them in employment subject to social insurance contributions
- to identify the potential of the participants through in-company testing (internship)
- to show them perspectives
- to inform them about the conditions of the German job market
- to support job application activities

## Content

- First interview
- Analysis of strengths and weaknesses
- Professional orientation
- Information about the recognition of degrees acquired abroad
- Information about the German job market
- Teaching of job-related language skills
- Preparation for the "real-life" phase
- Competence assessment in a real company
- Active job application training
- Practice of job interviews
- Strategy of self-marketing
- Strengthening of computer skills
- Support in the use of JOBBÖRSE
